OUR MISISION

Pay attention to the happiness, the concept of human life; create a comfortable home bathroom brand.

UNIQUE DESIGN

It harmonizes the sense of conflict between nature and humanity, creates extremely simple and humanised products with considerate functions, and permeates the caring and simple and plain art of life, so as to truly be "considerate and subtle".

GOOD QUALITY

Focus on the pursuit of good quality, we know that change a thousand miles a day, only constant self-innovation, to improve quality, to make the product excellence, excellent quality and reasonable price.

We care for Nature

D & B

Recreating happy experience with water

Established with a clear vision for our products, people and business we at D&B always aim to recreate some happy experience with the vital force of water.

We steer ahead to show this clear sense of purpose in our business and which again remains our core value all along. We interpret them into action and ensure that we are reflected throughout in everything we do.

Redefining the rhythm of Gracious Living

We are dedicated to improving the level of gracious living in the periphery of all who select our products to add joyous rhythm while enjoying the flow of water, the essence of our life.

Our continued success emerges from a clear sense of purpose and a corporate culture which promotes living on the leading edges, meshing art and advance technology to create new products, new markets and new niches within exciting markets.

Reviving sense and sensibilities through excellence

We maintain a high standard of quality in all products and services to make them capable of delighting the sense and sensibility of end users consistently and continuously by reinvesting the majority of our earnings in operational excellence.

What we have achieved today, in part, is the freedom to think in long-term and for whom relationship matters. Our team leaders are strong, self-reliant, never short of original ideas, and possess the courage to expand, diversify, and take necessary risks to achieve our objectives. And that courage is visible in such unconventional decisions.

Restrengthening the bond, you'll cherish always.

Our assortment of products comprise the finest ranges and showcase inspiring ideas, always elevating the level of happiness and enhancing the level of gracious living for everyone touched by our products and services.

We set the bar high for ourselves, and committed to make our all products superior in tune with world-class parameters which in turn create a lasting bond, you will cherish all the way.

D&B

Squared edges to beautify and give a modern touch to your experience. Perfectly designed to create a sleek and advanced look to make it clean and simple.

Edges are used to highlight the perfect structure and angles of a piece, mainly pointing to its geometry and structure.

These are a great way to create a minimalist, yet elegant aesthetic in design.
